Thank you for purchasing K&H Manufacturing's EZ Mount Track n' Roll™. When used correctly, the EZ Mount Track n' Roll™ toy should provide your kitty with hours of interactive fun and exercise.

Installing Your EZ Mount Track n' Roll™

- 1** Clean your window or appliance and the back of the suction cups to ensure proper adhesion. Surface needs to be free of dirt, oils and dust.
- 2** Hold balls in place by gently pressing the toy against the window or other non-porous surface and apply pressure to the first suction cup.
- 3** Line up suction cups 2 and 3 then press each until toy is securely in place.

We hope your kitty enjoys their new EZ Mount Track n' Roll™ toy!

Attention: *As with any suction cup, debris, temperature changes, sunshine and excessive use can weaken the holding power. We recommend removing the suction cups at least once per month to clean the window area, clean the suction cups and then re-install them for optimal strength.*
